

# Cradlepoint Failsafe Plus Solution

## Network Uptime Assurance Solutions

### CRADLEPOINT AS REDUNDANT ROUTER WITH 3G/4G LTE FAILOVER CONNECTIVITY CONNECTED TO OTHER PRIMARY ROUTER WITH TRADITIONAL BROADBAND PRIMARY CONNECTIVITY

### FULL REDUNDANCY SOLUTION - PROTECTION AGAINST FAILURE OF PRIMARY WIRED CONNECTIVITY AND/OR PRIMARY ROUTER

- + Auto Failover/ Failback from Primary Router and/or Wired Network to redundant Cradlepoint router and 3G/4G LTE Network using VRRP (Virtual Router Redundancy Protocol)
- + Plugs into Ethernet port on existing/primary router (e.g. Cradlepoint, Cisco, Juniper, etc.)
- + Integrated Enterprise 4G LTE and/or 3G Modems with high-gain external antennas. Designed for better security, higher performance, and 24x7 operation. Support for US and international carriers.
- + Future-proof your network: Single versatile hardware platform supports several carriers
- + USB port for use with an optional USB-to-Serial adapter to support out-of-band management connection to console port on primary router
- + Cradlepoint NetCloud Manager provides zero touch configuration/ deployment, remote management, firmware updates
- + VRRP functionality requires EEL (sold separate) or included with NCM PRIME

## CRADLEPOINT COR IBR600 – AER1600 – AER2100 – AER3100

COR IBR600

AER1600

AER2100

AER3100

## BUSINESSES THAT WOULD BENEFIT: RETAIL • BRANCH OFFICES • RESTAURANTS

### COMMON CHARACTERISTICS

- + Less than 20,000 sq. feet
- + Involved in customer transactions
- + Limited on-site IT resources
- + High cost of downtime

### COMMON NEEDS

- + Reliable connection to cloud-based apps
- + Optional Guest Wifi
- + PCI Compliance
- + Secure Networking (private, VPN, etc.)

### CRADLECARE SUPPORT

- + Unlimited Technical Support Center Assistance
- + Advance Replacement, Next Day Device Replacement
- + Web-Based Support Tools & Knowledge Base
