

Support Brace

- Heavy gauge steel construction for long-term durability
- Designed for ease of installation
- Telescoping design allows for precise length adjustment without drilling into the pole
- Includes durable aluminum pole clamp that prevents catch points
- Increases the mounting system rigidity in rugged driving environments

7 (in) Center Upper Pole

- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- Allows for closer mounting to the dash when off-set adjustability is not needed
- Less stress on the vehicle mounting equipment as gravity is centered on the pole
- Wrench is needed for loosening, tightening and height adjustments
- Limited Lifetime Warranty

Dodge Charger No Drill Vehicle Base

- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- No drill base will work with both the police and street model Vehicles
- Can be used with factory installed console

13 (in) Lower Pole Assembly

- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- Hardware for attaching to MCS Top Plate included
- Weighs 2.65 lbs. / 1.20 kg

9 (in) Lock Slide Arm

- Heavy duty, spring loaded steel, side pin was tested to 50,000+ cycles
- Can be mounted directly to a flat surface or on any Upper Pole, Complete Pole, Center Pole, Low Profile Bracket or Smiley Face Pattern
- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- Limited Lifetime Warranty

Dodge Charger Upper Truck Shelf

- Strong, lightweight aluminum alloy
- Rugged construction for long term durability
- Upper tray slides on heavy-duty ball bearing slides and can latch securely in the closed and open position
- Available mounting space 37.75" W x 18.5" D (95.9 cm x 47.0 cm)
- Black powdercoat finish for maximum corrosion resistance

Dodge Charger Lower Truck Shelf

- Strong, lightweight aluminum alloy
- Rugged construction for long term durability
- Lower tray slides on heavy-duty ball bearing slides and can latch securely in the closed and open position
- Black powdercoat finish for maximum corrosion resistance
