

POTS LINE REPLACEMENT

POWERED BY LTE NETWORKS

Quickly replace your old copper phone lines while **reducing expenses** and getting better **visibility, support, and compliancy** on an **unlimited LTE network**.

Maintaining plain old telephone service lines (copper wiring or dial-up) is increasingly costly, and those rising costs are being passed on to customers by service providers. Since the FCC deregulated support in 2022, Carriers no longer have to maintain or offer lines.

What Uses a POTS Line?

- » Voice Lines
- » Fax Lines
- » Elevator Phones
- » Credit Card Machines
- » ATMs
- » Gates & Doors
- » Panic Buttons
- » Alarm Systems
- » Meter Reading
- » HVAC Systems
- » SCADA
- » Applications
- » Emergency Call Boxes
- » Fire Alarms

Our NOC **notifies, identifies, and provides instant support** to get you back up. **Future-proof your tech** with no infrastructure updates.

Reduce Expenses
(overwhelming majority of scenarios)

Increase Uptime
(and Reduce Your Liability)

Improve Support & Monitoring
(Proactive Support from RCN's NOC)

Gain Compliance with Advanced E911 Requirements

Maintain Service During Power Outage
(Battery Backup Included)

Stay Connected with Dual-Carrier LTE
(Wired + SatCom Tertiary)

Future-Proof Your Technology
(POTS Networks Phasing Out)

Compliant with NFPA72, ASME A17-1, & UL List Standards

CONVERT EXISTING INFRASTRUCTURE TO THE FAST & RELIABLE LTE NETWORK

POTS Link converts your existing analog phone line into a wireless connection in a simple, all-in-one service.

By harnessing the power of VoIP-over-LTE, POTS Link delivers the connectivity and intelligence needed for secure, compliant, and efficient traditional telecom management.

HOW MUCH COULD YOU SAVE?

POTS Link scales with your needs, supporting up to 8 concurrent service lines per kit.

The typical cost savings are between 20-50%.

A major university needed a modern solution, more support, and most importantly, cost savings space on their telecom expenses.

After converting their POTS lines with a POTS Link, they save \$2,700 every month while getting better service.

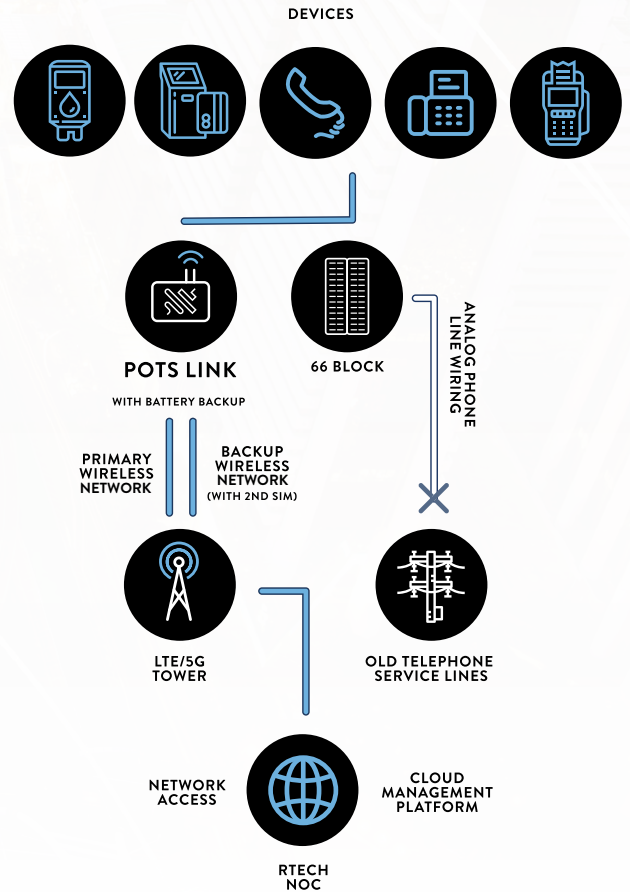

ALL SERVICE LINES INCLUDE

● **DUAL-CARRIER**
LTE

● **LIFE SAFETY**
COMPLIANT CONFIGS

● **24/7**
NOC SUPPORT

● **ADVANCED E911**
CAPABILITIES

KEY BENEFITS

1. Price Locked Contract Rates
2. 24/7/365 NOC Support
3. Reduced Self-Management Burden
4. Compliance with Major Life Safety Codes
